

PRODUCT CATALOG

WUXI BRILLIANT TECHNOLOGY CO., LTD.

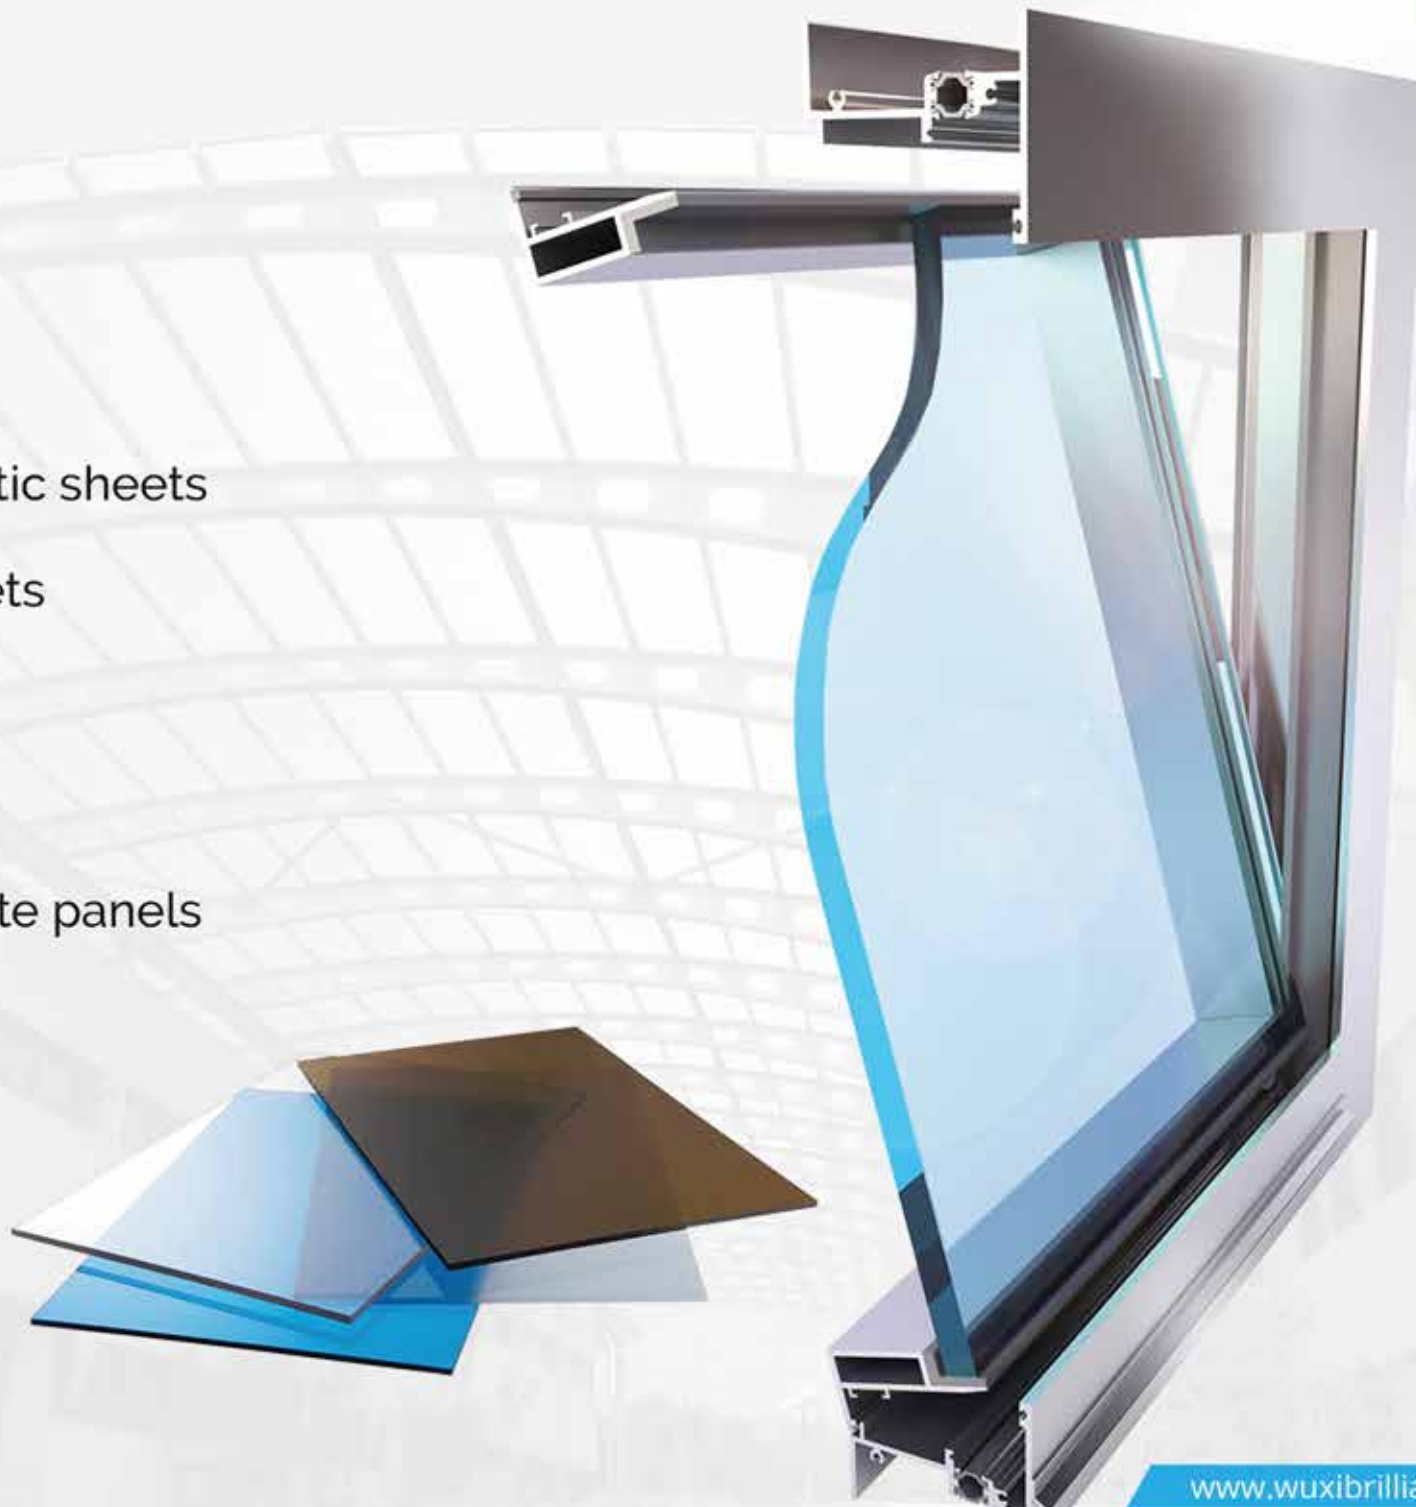

Company Profile

Wuxi Brilliant Technology Co., Ltd. is located in Wuxi city that is outside of Shanghai. We are specialised in developing and manufacturing plastic sheets and ink-jet media, our product includes acrylic sheet, PVC foam board, rigid PVC sheet, PP corrugated sheet, polycarbonate sheet, and art canvas media. It is widely used in printing, sign-making, graphic arts, advertising, packaging, interior decoration, roofing, construction and industrial use.

We are one of the most reliable supplier in China. We are committed to providing our valuable customers with premium quality, cost effective products, and good services. We look forward to partnering with you for a long term business relationship soon.

Our Categories

-  PVC foam board
-  PP Corrugated plastic sheets
-  Polycarbonate sheets
-  Paper foam board
-  Canvas fabric
-  Aluminum composite panels
-  Acrylic sheets

PVC foam board

The flat PVC foam board is lightweight, flexible and durable. It is ideal for use in advertising, printing, engraving, decoration and construction.

APPLICATIONS:

1. Digital printing and screen printing
2. Advertising: displays, signs, engraving, interior decoration, exhibition board and claddings etc.
3. Construction: models, partitions, wall cladding, air conditioning ducts etc.
4. Industrial use: control cabinets and panels,

SPECIFICATIONS:

1220x2440mm

1550x3050mm

2050x3050mm

Thickness: 1mm ~ 30mm

Colors: white, black, gray, red, blue, yellow, and green,

Custom colors and sizes are available upon request.

PP Corrugated plastic sheets

Corrugated plastic sheet is made from polypropylene plastic. It is waterproof, resistant to chemicals, stronger yet light-weight, and recyclable. Our coroplast sheets are corona treated on both sides to support screen printing, digital printing and graphic applications. It is widely used in printing, packaging, agricultural and industrial use.

SPECIFICATIONS:

457x610mm = 18x24 inches;

1220x1830mm= 4x6 ft = 48x72 inches;

1220x2440mm= 4x8 ft = 48x96 inches;

Maximum width: 2,100mm, and length any;

Thickness: 2mm~15mm;

Colors: available in many colors;

Custom colors and sizes are available upon request.

APPLICATIONS:

1. Advertising: digital printing, screen printing, sign board, graphic arts, presentations, displays and trade show booths,
2. Partitions for electronic devices,
3. Packaging boxes for fresh vegetable and fruit for farm use,

PROPERTIES:

1. Waterproof
2. Weather resistant
3. Stain resistant
4. Moisture resistant
5. Recyclable, reusable and returnable
6. Non-toxic and flame resistant,

Polycarbonate sheets

WE SUPPLY:

1. Solid PC sheet,
2. Embossed PC sheet,
3. Multi-wall PC sheet,

APPLICATIONS:

1. Advertising, signs and lighting-box,
2. Roofing, greenhouse, skylights and dome-lights,
3. Sound barrier for highway, railway,
4. Indoor partitions of houses and offices, sidewalks, fences, balconies,

SPECIFICATIONS:

Max width: 2,100mm, and length any,

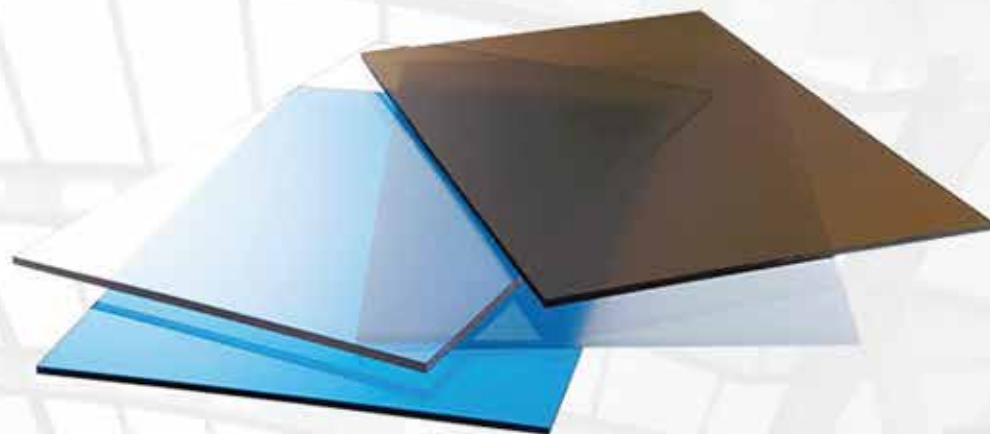

Thickness: 1.5-12mm for solid sheet; 4-30mm for multi-wall sheets;

Color: clear, blue, green, silver, opal etc.

Custom sizes and colors are available upon request.

PROPERTIES:

1. High impact resistance,
2. Excellent light transmission,
3. Low water absorption,
4. Good heat insulation,
5. UV resistant, non-toxic and light-weight,
6. Easily worked, molded and thermoformed,

Canvas fabric

WE SUPPLY:

1. Cotton canvas,
2. Polyester canvas,
3. Polyester-cotton canvas.

It is widely used in advertising, displays, light-box, roll-up banners, paintings, photography, tents etc. It applied solven ink, eco-solvent ink, pigment, dye, UV and latex

SPECIFICATIONS:

24"/36"/42"/50"/60"/72"95"x18/30/50/100/200M

Aluminum composite panels

Aluminum plastic composite panel is composed of polyethylene core and two thin aluminum sheets on top and bottom. The surface is coated with PVDF or polyester. It is widely used in outdoor advertising, signs, decoration, wall cladding and ceiling systems.

PROPERTITIES:

1. High peel strength,
2. Fire retardant,
3. Good impact resistance,
4. Light weight, easily processed and installation,
5. Good resistance to corrosion,

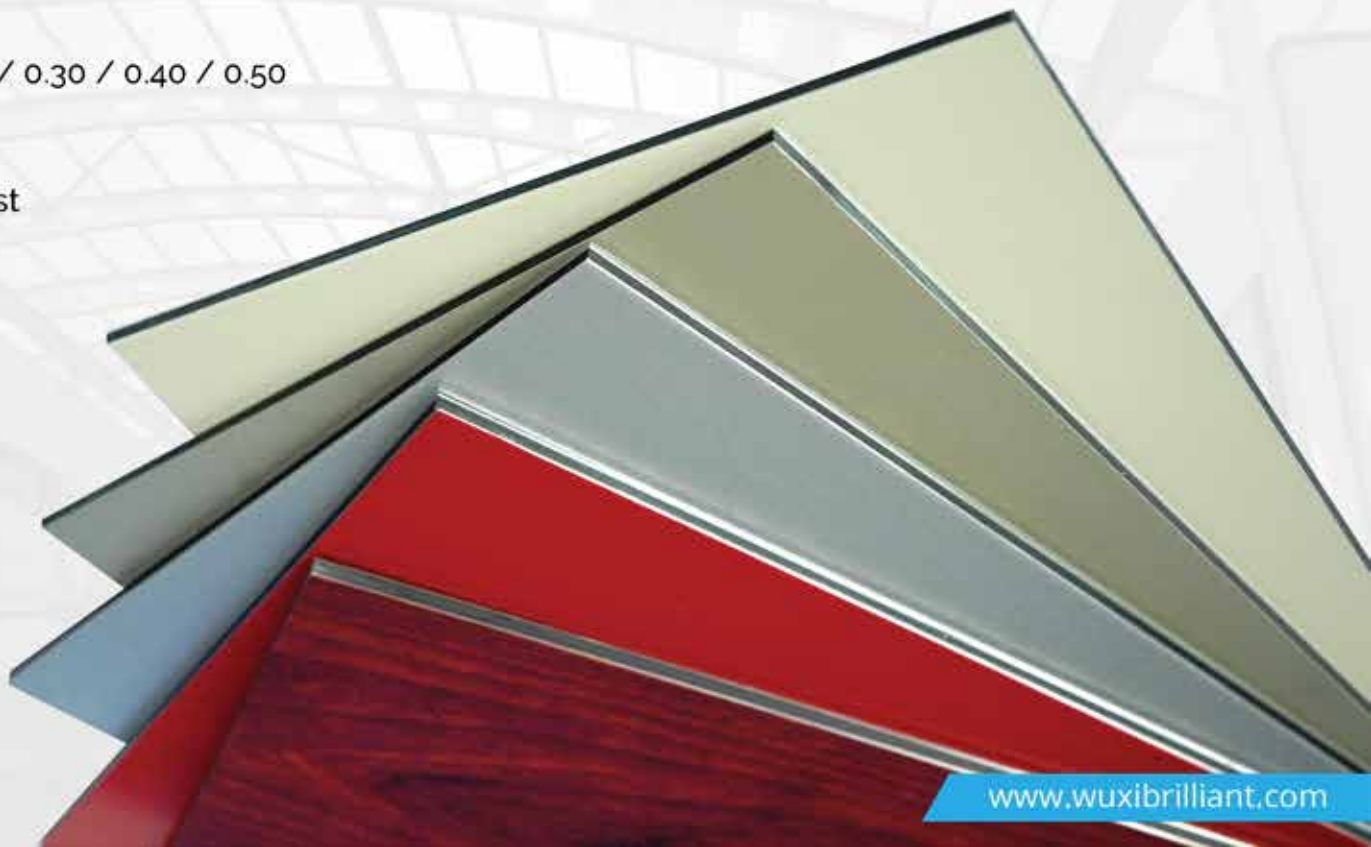

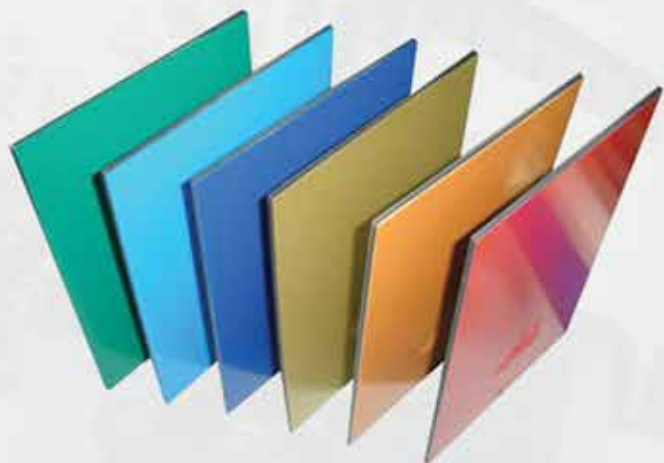

SPECIFICATIONS:

Aluminum thickness(mm): 0.12 / 0.15 / 0.18 / 0.21 / 0.30 / 0.40 / 0.50

Panel thickness: 3mm, 4mm, 5mm, 6mm,

Sizes: 1220x2440mm, 1500x300mm,

Specific sizes and colors are available upon request

Acrylic sheets

Acrylic sheet is also named Plexiglass. The chemical name is Polymethyl methacrylate. It is widely used in sign making, modern furniture, interior decoration and industrial use.

OUR PRODUCTS:

1. Clear acrylic sheets;
2. Translucent acrylic sheets;
3. Colored acrylic sheets;
4. Gold mirror and silver mirror sheet;

SPECIFICATIONS:

1250x1850mm= 4x6 feet = 48x72 inch;

1250x2450mm= 4x8 feet = 48x96 inch;

1550x3050mm= 5x10 feet = 60x120 inch;

2050x3050mm= 80x120 inch;

Thickness: 2mm~30mm;

Colors: available in many colors;

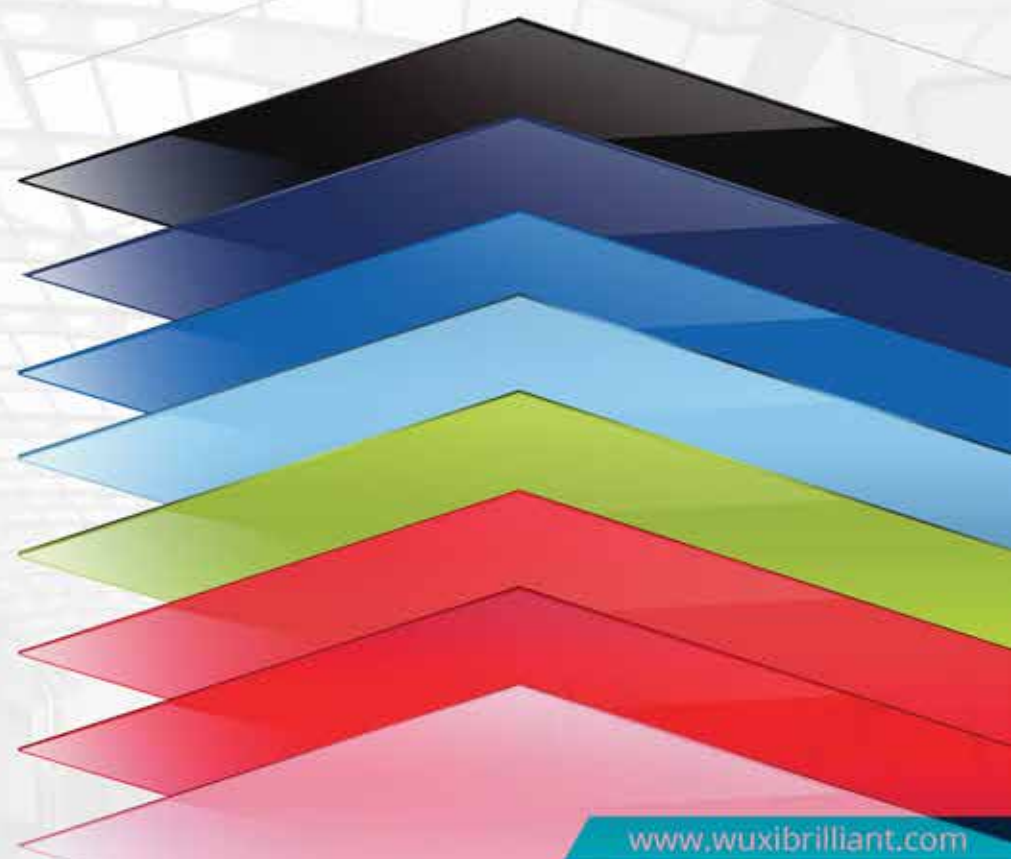

Special size can be made as per customer's requirement.

PROPERTIES:

1. Excellent transparency,
2. Superior weather resistance,
3. Good mechanical processability,
4. Easy to process, safe in use,
5. Light weight and good flexibility,
6. Non-toxic,

APPLICATIONS:

1. Advertising, sign board, digital printing,
2. Gift and stationery,
3. Furniture,
4. Back light board,
5. Interior decoration,

Paper foam board

Our foam board is made of resilient extruded polystyrene foam core, laminated with clay coated white paper on both sides. It is ideal for signs, presentations, mounting, framing and printing.

WE SUPPLY:

- White paper foam board
- Black paper foam board
- Colored paper foam board
- Tri-fold foam board
- Paper foam board with self-adhesive

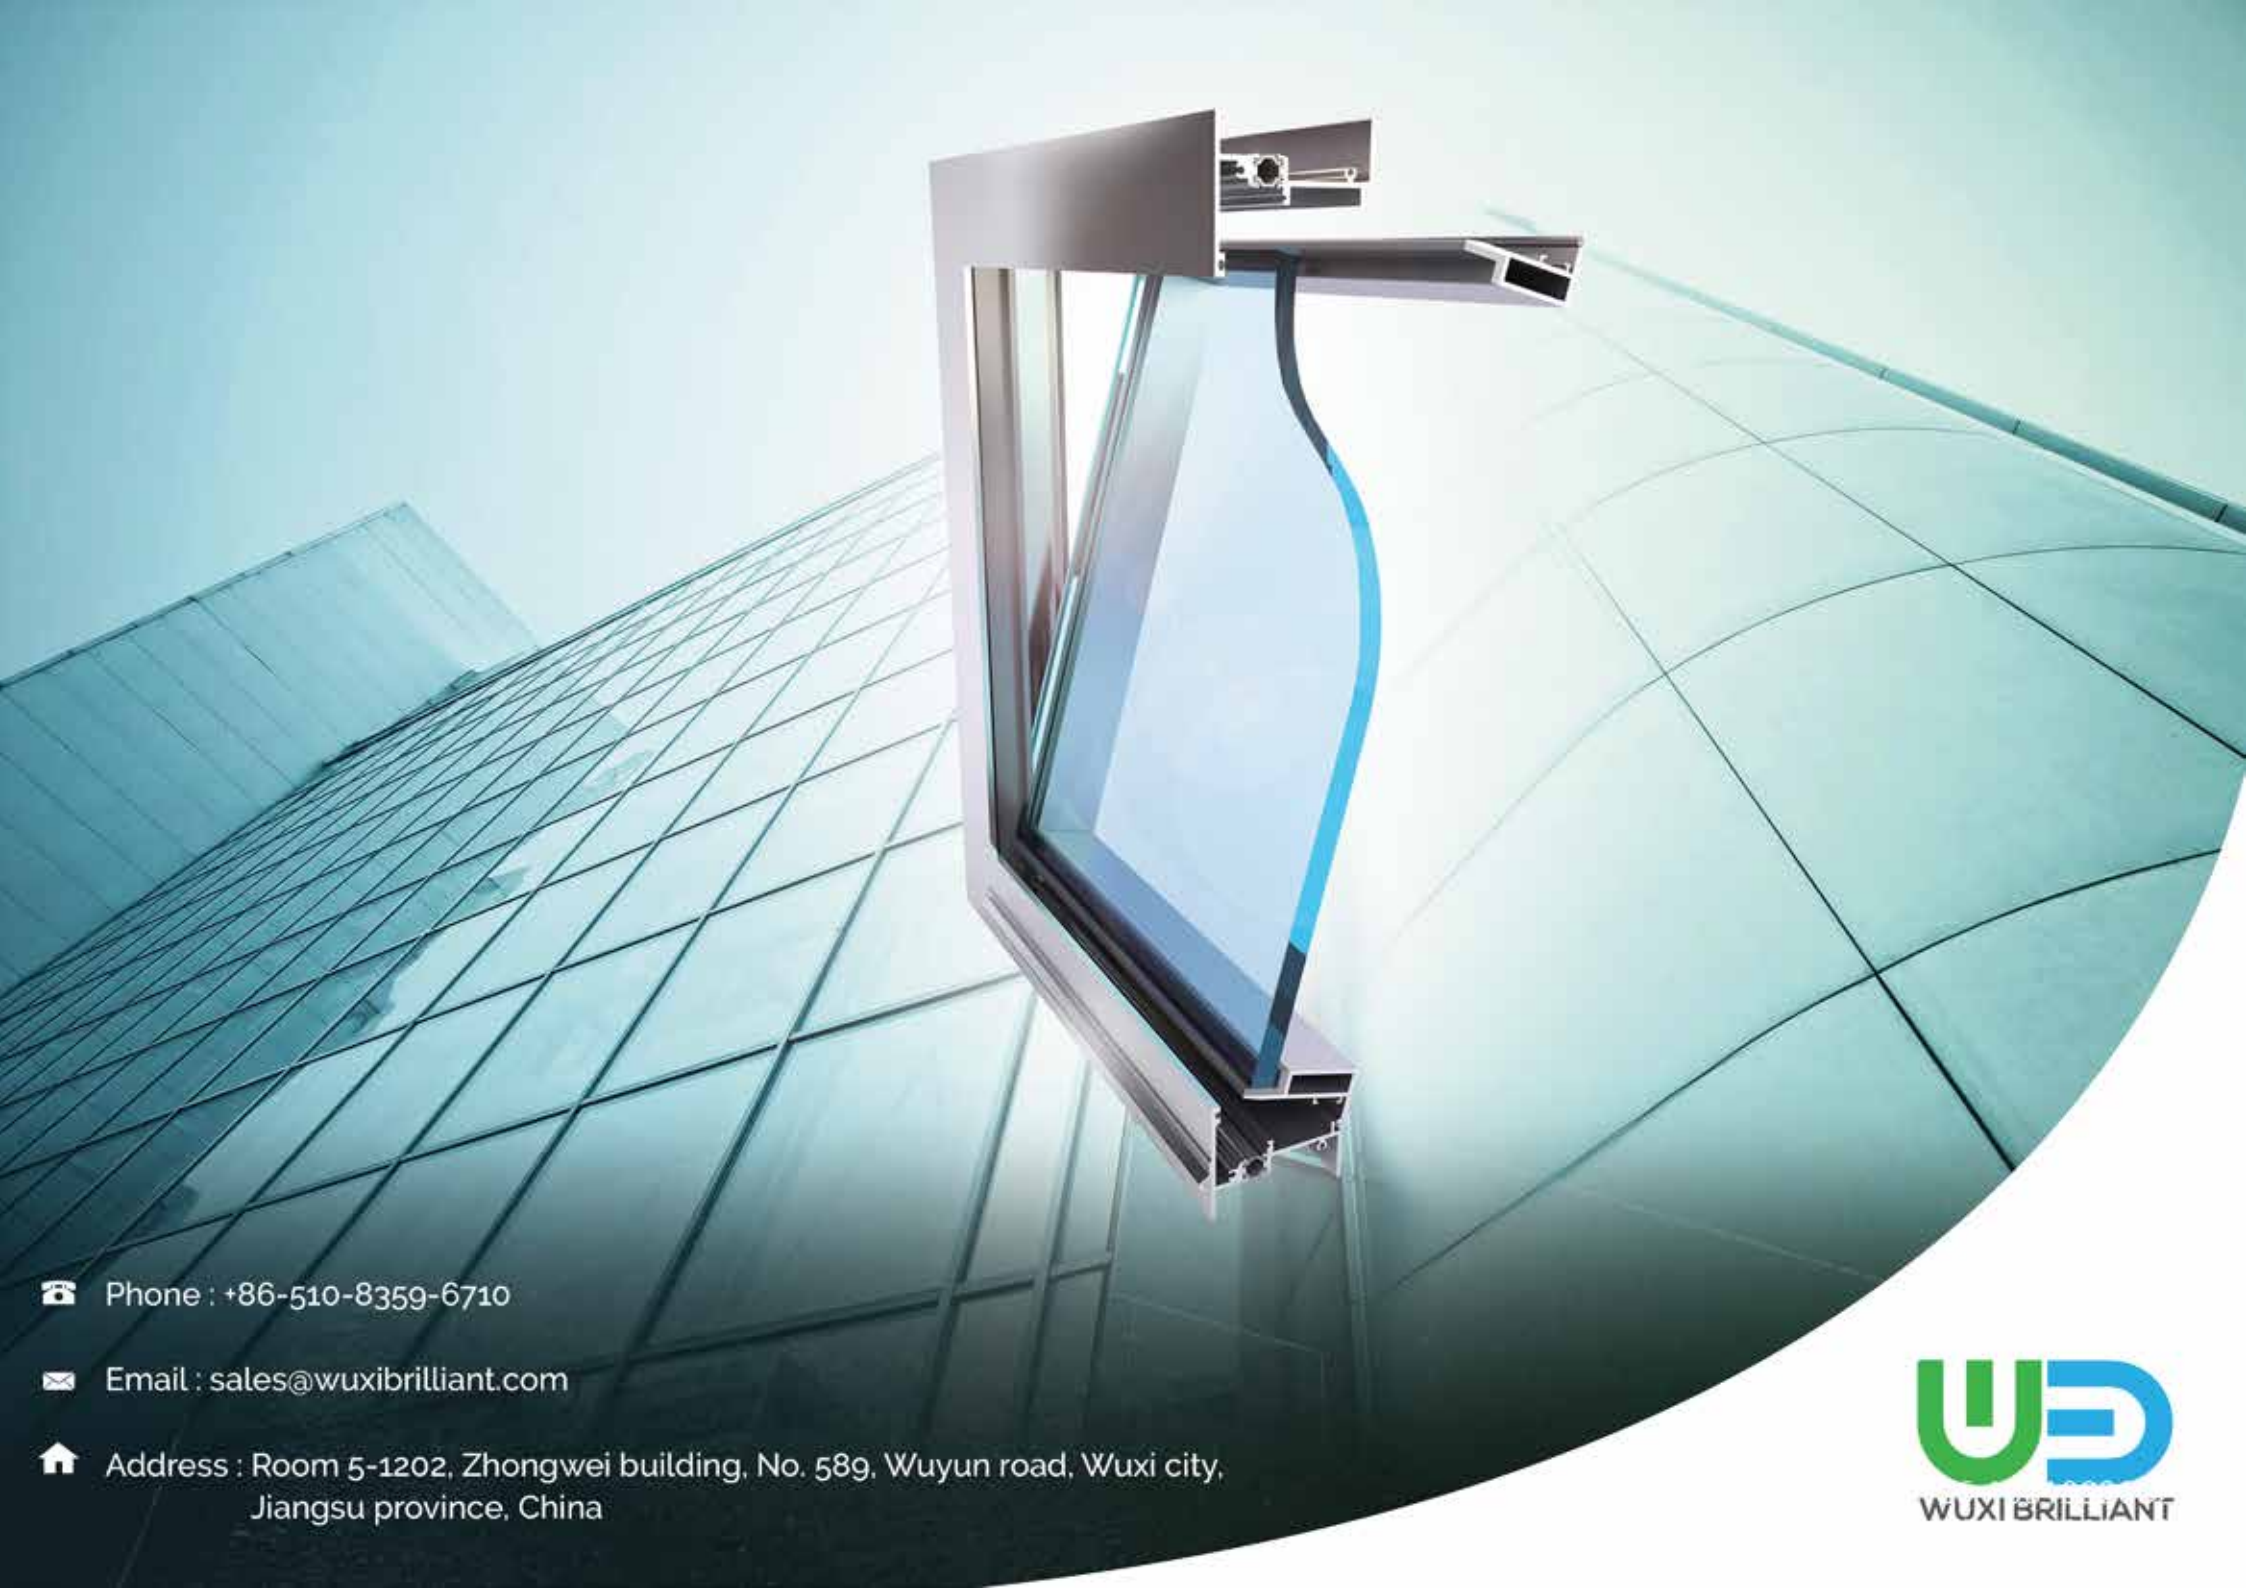

SPECIFICATIONS:

- 20" x 30" =508x762mm
- 30" x 40" =762x1016mm
- 36" x 48" =914x1220mm
- 40" x 60" =1016x1524mm
- 48" x 96" =1220x2440mm
- 60" x 120" =1520x3050mm
- Thickness: 1/8"(3mm), 3/16"(5mm), 3/8"(10mm),
- Custom colors and sizes are available upon request.

APPLICATION:

1. Sign and graphics,
2. Display, presentation,
3. School and office use,
